ENGINEERING PROFILE:

The key behind the success and growth of any Engineering Organization is Engineering and Project Execution Department. Project Execution will be fully managed and supervised by well-qualified Engineers dedicated in the field of Fire Protection.

Besides, our Design will be based on NFPA codes, BS & UL standards which are approved by Qatar Civil Defence Authorities. Drawings will be prepared by Auto Cad MEP 2012. We will have technical library with all the latest standards and know-how in the Fire Fighting field.

Therefore we assure you that the Engineering of BLTCC will derive the best result to the utmost satisfaction of the client requirements. In this regard, it would of great honour and pleasure to us if you would give us an opportunity to apprise you of our capabilities in detail and give us an opportunity to be associated with you. For further details and also for your requirements, please do feel free to contact us at your convenience.

Thanking you and assuring you of our sincere and prompt service always.

Yours faithfully,

Mr. Yousef AL Jassim
